

Backup

The DfE 3-2-1 backup strategy protects your school's data by keeping three copies, one being your live data and two backups on two types of storage, with one stored offsite - minimising risk from cyberattacks or disasters and ensuring swift, stress-free recovery.

Recovery

If any data is lost, schools can quickly recover their information with help from our support team, keeping interruptions to a minimum.

ScoBackup

Backup and Recovery

Schools selecting ScoBackup benefit from a combination of unlimited, secure data protection, responsive support, and budget-friendly pricing—all from a partner dedicated to serving the needs of educational institutions. As a result, ScoBackup is an ideal solution for schools that prioritise both security and affordability in their data protection strategy.

What is ScoBackup?

ScoBackup is a comprehensive data backup service designed specifically for educational institutions. Its primary goal is to ensure the security, reliability, and recoverability of school data in the face of modern threats such as ransomware, viruses, and unexpected data loss incidents.

DfE 3-2-1

The DfE 3-2-1 backup strategy keeps three data copies, one being your live data and two backups on two types of storage, with one offsite, ensuring reliable recovery from cyberattacks or disasters.

Service Desk & Remote Support

Tailored, Context-Aware Support – Guidance that aligns with your school or trust improvement plans—not generic advice.

Unlimited Backup

Schools can back up as much data as necessary.

Essential for Disaster Recovery

Forms a critical part of a school's disaster recovery plan, enabling swift and effective recovery from data loss events

Proven Cybersecurity Technology

The service utilises secure, up-to-date backup methods to defend against evolving cyber threats, including ransomware and viruses

About Scomis

Scomis is part of Devon County Council and has traded as a not-for-profit organisation supplying ICT support and services to the education sector for over 40 years. Our mission is service excellence for our customers nationally, achieving improved outcomes and creating proven value.

Having started as a support service for Devon schools, we are proud to say we now work with schools, federations and trusts nationwide.
