

Are you thinking of setting up a new Wi-Fi network or maybe the performance of your existing network is poor and you need to improve it?

The Scomis Managed Wireless Network Service is designed to help you make the most of your investment in Wi-Fi from beginning to end. The service includes a consultation to understand your needs and a survey to help plan the best solution for your school. Whether you're planning to install a new Wi-Fi network or upgrading, revising or even just trying to improve an existing system, our service can help you.

Key Features – the service includes the following:

- Initial consultation with your school to understand your needs
- Free remote/virtual survey or a more detailed, chargeable on-site survey
- Design of the wireless network using professional, specialist tools
- Report of our recommended solution with pricing
- Wireless hardware procurement advice
- Installation of the hardware using our certified cabling partner if required
- Integration of the wireless solution into your existing infrastructure
- A post installation wireless survey to verify that your requirements have been met
- A walk-through test of the network and technical sign off post installation
- A choice of post installation support services

Affordable solutions, tailored to meet your individual needs

From our initial consultation, through our survey and design process using professional, specialist tools, to procurement advice, installation and post installation support; we will be able to help, guide and support you in developing a Wi-Fi solution that will meet your requirements and budget from vendors including UniFi, Meru and Meraki.

A Choice of Wi-Fi Support Services

After installation, you can choose from two levels of post-installation support service - Standard or Advanced. Our Standard support service is mandatory for the first year and you can upgrade to Advanced at any time. By upgrading to our Advanced service you will also be supported for BYOD.

At the heart of everything we do is joined up thinking.
